New York, Aug. 8.—Extraordinary interest attaches to the government crop report because of the serious damage to corn and other conflicting or uncertain conditions. The stock market showed the effect of this situation by remaining dormant for the greater part of the early session, after opening moderately active and firm, Union Pacific and New Haven fell a point cach, the latter being sold on rumors affecting future dividends. St. Paul and Northern Pacific were up a point. Wabash issues were strong, the preferred rising three points. Steel was the feature of the industrials, gaining TM. the feature of the industrials, gaining Tig.
Coppers were firm in anticipation of a faverable producer's report.
Bonds were irregular.
Beports of another advance in copper prices abroad and incrused demand for the metal here, caused a revival of speculative interest in the copper groups, which offset the monthly showing. Generally speaking the cone of the market showed improvement over the foremon cealings, but the buying was trivial.

The market closed irregular. The condition disclosed by the crop report appeared to have been discounted in the earlier weakness. Prices improved steadily, after the report was out, some shares railying a point. Shorts were buyers on the usual practice of covering on publication of the bad news.

Canuto Leva, the rebel captain who was in charge of the escort of rebels which brought the wounded to El Paso Thursday, was placed under arrest Thursday night and nine of the wounded rebels were rounded up at the hotel Roma Friday afternoon and taken to Fort Bliss, where they will be held as prisoners of the United States army, as was done in the case of the federal soldiers, who were taken to San Diego recently.

The nine who were arrested Frida were discharged from Hotel Dicu by the were discharged from Hotel Dieu by the Red Cross Thursday night. The officers of the army are now looking for the escort that brought the men to El Paso

USE STEAM ROLLER IN THE FREIGHT YARD IMPROVEMENT
For the purpose of grading the street
leading up to the El Paso & Southwestern freight depot, located at the intersection of Ochoa street and the tracks,
a steam relier and several gangs are at
work. Instead of the tracks extending
to Florence street, as formerly, they are
now built as far down as Campbell. A
steam roller has been leveling the earth
between the two runways, to make a
heavily graded street, for the convenience of wasons hauling freight from
the depot. Concrete filling has been
placed on each side of the tracks, forming a curbing, against the street now
being levoled. The office of the section
master has been removed. FREIGHT YARD IMPROVEMENT master has been removed.
